One of the best dentists, even best medical facilities, I've ever been to. Not only do they provide the care I need with exceptional service and performance, they also provide me with the tools and knowledge I need to better understand and care for my health. From the way they approach a problem, to the way they execute the solution, they are absolutely phenomenal.

I LOVE all the staff in this office. Everyone is very caring, kind and respectful. I suffer from high anxiety but the staff are so gentle and respectful I don't seem to have much anxiety when sitting in the dental chair. This is a HUGE plus for me because I've gone to other dentists and they never seemed to listen nor did they care about my feelings. SO...If you struggle with anxiety about going to the dentist, I'm here to tell you to Dr. Scott Davis and his staff will put you at ease.

★★★★★ *Best dentist and staff ever!* — **MARGARET M.** (Patient since 2017)

I think that Dr. Davis and all of his staff are wonderful, caring, people who make all of their patients feel important and that they are not just a number, but each of us is a unique individual to them. I really do appreciate the way that Dr. Davis practices dentistry and just wish there were more dentists out there that would practice the same way.

★★★★★ *I had come in to have a chipped tooth repaired....* — **GERALD B.** (Patient since 2013)

I had come in to have a chipped tooth repaired. Once seated, the assistant took close up pictures of the damaged tooth. This would later be put in my file with "after" photos of the repair work completed. I was shown both photos and was able to see both the damage and repaired tooth afterward. Dr. Davis is an exceptional dentist, keeps updated on the newest techniques, and is always mindful to ask about any discomfort during any procedure. I am more comfortable and at ease with him than any other dentist I have had previously.

At seventy-seven years of age, I have had occasion to visit many different dentists. Dr. Davis performed the most efficient and professional extraction that I have ever experienced. As a first time patient, I was warmly welcomed and given a personal tour of the entire office. I felt at home and will definitely return should I require additional dental work. I would strongly recommend giving Davis Family Dentistry a call to schedule an appointment whenever dental work is required.

Scott Davis is not a dentist - he is an artist for teeth. I am currently on my second year without a cavity because of following his recommended teeth clean process (normally I have at least 1 cavity in a 6 month period). He has rebuilt some of my teeth, fixed teeth that have for years been difficult to care for and all without painful injections and drilling. I strongly recommend making him your dentist.

This dentist is unlike any I have ever seen. He was so kind in the most genuine way. He explained everything clearly and made sure I understood before moving on. He gave me hope about something that has frightened me for so long. His laugh is fantastic. I know I have found my forever

dentist and for the first time in my life I feel great about the direction I will take. From the moment you walk in to his office you are greeted with kindness, respect, and a warm fresh cookie. I left there wondering why it had not always been like that. It was such a heart warming experience. How often do you hear that about an emergency trip to the dentist?

★★★★★ *Services Rendered* — **STODDARD H.** (Patient since 2014)

I cannot be happier with the dental experience I receive from Dr Davis. Biomemetic dentistry should be examined by any person in need of dental work. The whole approach is more holistic, and leaves you with options that traditional dentistry strips from you with the typical approach to more severe tooth problems. Not only do you keep more of your natural tooth, but you keep a few options if you have further issues with that tooth. In short, Im stunned that this isnt the more common approach to sustainable dentistry. The basis for Biomemetic procedure, is more mechanically sound than any of the procedures, seen as "the only fix" by traditional dentists Ive had in the past. Not only did I receive what I think are superior results, on what was seen as a train wreck by any dentist, the cost to do the most difficult procedure to save a tooth with Dr Davis, is less costly than other dentists "only fix", not including other procedures Dr Davis would include. New technology is one thing, results the most important, but I wish to share another aspect of Dr Davis skill set. I was asked if I wanted Novocaine before my procedures. I didnt know you did anything else, as I had suffered pain and bleeding with

Novocaine at other reputable dentists. Not only have I had complete tooth rebuilds, but several root canals. I had heard nightmarish stories about root canals. Dr Davis told me I should have no pain, if he knew what he was doing. HE DOES ! I take nothing, and feel nothing while he does his craft. I fall asleep during my procedures now. Dr Davis is a skilled craftsman, Doctor and artisan. Not only that, he makes it financially possible to care for your mouth.

Dr. Davis and his team are beyond excellent, I can't say enough how they were so friendly, professional, educational, this dental clinic has it all and has it all together!! I have severe peridontal disease that was diagnosed by 3 other dentists, yet not one of them taught me proper brushing technique or helped me set up a brushing regime with different products. I am 46 years old and losing teeth and this is the first dental office that ever actually educated me. Had I have found Dr. Davis and his staff years ago, the progression of my disease and loss of teeth would never have gotten this bad. God bless this dental practice!!

★★★★★ *Great Experience at my dentist* — **SHIRLEY L.** (Patient since 2004)

Recently I had my teeth cleaned at Dr. Scott D. Davis's office. He has the latest technology and knowledge of the most recent information available. He took his time to not only clean my teeth, but also took time to explain many new ways of brushing my teeth to help preserve them. I refused x-rays during my last 4 cleanings and was not pressured to change my mind. Dr. Davis always gives me treatment options. I am very happy with the services I receive.

The doctor was fine. He did a good job on my teeth. Best experience at the dentist ever. The most thorough cleaning I have ever had. Looking back after that, I'm not sure I've ever had a teeth cleaning before. For both my wife and I, we got the complete opposite feeling of a "drill-n-fill" practice. We felt like they resort to drilling as last resort; they instead gave us the tools to fix potential problem areas. Thanks.

★★★★★ *A Clear Alternative* — **STODDARD H.** (Patient since 2014)

If I had known of the technique used by Dr Davis a few years ago, I could have saved my damaged teeth for far less than I spent, and even that was far, far below what traditional dentists quoted me. Because I waited so long, due to potential, traditional dentists costs, I required root canals on a few of my teeth before doing core build ups. If I had known Dr Davis and his program, I would have required no root canals. That said, if I had known of Dr Davis, I could have solved all of my dental issues for the cost of one crown, done by traditional dentistry. I highly endorse Dr Davis and his craftsmanship Stoddard Hodgson

★★★★★ *Great experience, wonderful Dentist and Staff !* — **STACIE W.** (Patient since 2013)

This office and staff were so warm and welcoming! Everything was explained so clearly, and every effort was made to make me feel at ease. The staff were so kind and helpful, and Dr.Davis was amazing. I was very nervous, and he took his time to make sure I was alright during my whole procedure. He was gentle and so careful to make sure I wasn't in any pain. It's not everyday that a Doctor will call personally to check in on you over the weekend to make sure you are ok, or to see if you have any questions, but he did. His office manager was great too, and was available the whole weekend in case I needed something. I have had not such great experiences before, and was so relieved to have such a good experience here. I won't go back to any other Dentist, and will definitely recommend Dr.Davis and his staff to everyone!

★★★★★ *Dr. Davis Is The Best!* — **DIANE B.** (Patient since 2013)

My husband had an emergency situation earlier in the month. Dr.Davis was not my husband's dentist. We saw his ad in the phone book, called his office, and Dr. Davis came in when they were actually closed. When I saw how my husband was treated and the care he received, I knew I wanted Dr.Davis to be my dentist. The entire staff is very friendly and everyone makes you feel welcome. This was my first time as a patient. I was so happy I changed to Dr. Davis. I have already recommended him to several other people. If you decide to go to Dr. Davis, you will be so glad you did.

I was as scared as could be after a time of not doing what I felt was a part of dental care. I expected hearing I'd totally blown it or getting some kind of negative response. I was surprised to get a lot of information I could begin to put to use right away. I got some real hope too. This was a great experience for me.

★★★★★ *I chose Dr* — **CARRIE W.** (Patient since 2013)

I chose Dr. Scott Davis based on internet reviews and the service I received when I called the office. Since then, all four members of my family have seen him. My 17-year-old daughter is near the end of a long process related to implant surgery, and there have been some delays related to the surgery. Dr. Davis & Co. have provided very reassuring service, and my previous dentist commended their professionalism. Dr. Davis is prevention oriented, and concerned that his decisions are based only on what we need rather than what insurance will cover. I am delighted, pleased, smiling and highly recommend Dr. Davis and his office staff to anyone!

★★★★★ *Broken tooth needed immediate action* — **JOHN N.** (Patient since 2013)

Broken tooth needed immediate action. Dr Davis returned to his office on Saturday to address the situation and to give me options to address the problem. His office set up a quick appointment to remove the tooth root painlessly and to start a bone graft for an implant. Though the actions had complications, Dr. Davis worked through them successfully and with as little discomfort as possible. I was pleased with the service received to this point.

★★★★★ *Great visit!* — **RHONDA R.** (Patient since 2012)

When I walked in I was greeted by Blain, whom had to put me in the computer. It was a little unorganized because of the gal I spoke to the day before, but he handled it rather well and was able to get things on track. I then was brought back by a gal that really knew what she was doing she had enthusiasm and really helped me to understand how important it is to take care of my teeth with hydrogen peroxide and water mix, and also using baking soda. When Dr. Davis came in he was eager to help me; he cleaned my teeth and I felt no pain, for which was a strange experience. With past dentist I left the appointment in so much pain I would take Tylenol for the pain. I was able to go to school and work with no pain and it felt amazing! I will definitely be going back to Dr. Scott Davis for my next appointment 👍 😊

★★★★★ *Free Consultation better than a \$200 Consultation from another dentist* — **LINDA**

D. (Patient since 2012)

Dr. Davis advise helped my TMJ immediately and cost me nothing. He also sent me as well as my orthodontist and restoration dentist a detailed report of my office visit. This was more than I received from a \$200 consultation from another dentist who offered me no immediate relief from my TMJ but was going to charge me another \$6,000 to begin his treatment. THANK YOU DR. SCOTT DAVIS

He has the latest and greatest of everything. Dr. Davis is always going to school and learning the newest and best of every kind of dentistry there is. Dr. Davis always knows the answers to all my questions. Dr. Davis will come in on his day off if you have a dental problem that can't wait for the next day that they are working. I don't know of any Dentist that will do that. They also help you with questions and problems everyday of the week day or night. I like all the people they have working for them too. They are all smart and know what they are doing. They don't hurt me or make me feel bad. They teach me how to take care of my teeth so I can have them forever. I will go there forever.....

★★★★★ *This is the best Dental office Dr* — **KIMBERLEY F.** (Patient since 2005)

This is the best Dental office Dr.Davis and his family are the most professional staff that I have ever met. I have never met a Dentist that has been so gentle. I love the teaching this helps to save your teeth from damage so many times we were not taught to brush safer Dr. Davis is so concerned about saving the tooth so he goes to extra measures to make sure you have the best dental care possible. I will never go to anyone else he has really saved my teeth I have Diabetes and he is concerned about my over all health not just my teeth. The staff is more like family to me. They always explain everything that they do and about the cost they give you written estimates to show

you cost and how you can pay. I will never go to anyone else they are the best Dentist that I have ever gone to. I will never go to anyone else Dr. Davis is quite up to date with his dental care,I can see that he keeps up with today new methods. Thank you DR.Davis and his staff. Kim

Everyone was truly terrific, and I fell in love at first visit. Dr. Davis is wonderful. It meant a lot that he was so kind, gentle and caring. My only complaint is that I did wish I'd been given something for the pain, for I had a pretty hard time that first night. I am rather dreading my next visit--as I would to any dentist for the procedure(s) that must be done--but knowing I'll get to see all of you so-nice and so-special people again has me almost looking forward to it. --ArLeen

This is always the dentist and place I would choose to go. Although, for cleaning where, usually the service through insurance it is paid in full, I ended up paying \$140 out of pocket. It seems to be quite a bit more. I realize I had the pocket issue but really she did no more scaling than usual. She did more on my front teeth (lower). Anyway-I will still continue to come but am disappointed in the cost.

A great visit, and a great team! As this was an unexpected emergency of a tooth 'falling out' which needed to be replaced, my budget would have preferred 1/2 down and 1/2 in 30 days; \$440.00 at once, unexpectedly, was a little shocking, but you have to make a living, and the cost was actually reasonable. Still wish was given the option. Looking forward to next visit and continuing care.

Thanks again. Eli

Dr. Davis was great. The other man in the office was by far the most pleasant person there/ As for the women in the office...they are a prime example of why people who haven't gone to the dentist in a

★★★★★ *"..I am very pleased and fortunate to have found such a great dental provider."* — **TERRANCE K.** (Patient since 2008)

"When I retired from the US Air Force in 2004 I never thought that attaining a dentist was important. Well Dr. Davis proved me wrong. I came to him in the summer of 2008 (yep not seeing a dentist for 4 years) and found that I needed some work done. Immediately he assigned Natalya to do the cleaning and other preparations needed for the close examination performed by Dr. Davis... From that point I knew that it was important to floss once a day and properly brush my teeth at least twice a day... It is very comforting to hear her say that I'm doing well and that there is a great improvement in my oral hygiene practices.Dr. Davis has provided me the type of treatment that I needed..not the type that the insurance company says I need. His care for the type of treatment that he provides me far surpasses the type of treatment I received in the military and now I always look forward to each visit. He provided me an opportunity to see how one of his machines made a porcelain crown for which I needed. As I look at it now I wished that the military would have offered me the type of "repairs" that Dr. Davis provided. I am very pleased with the outcome.I can't end my testimonial without acknowledging the rest of his staff; Karla, Hallie, Charmaine, Blair, and Sandra. From the moment I walk into the office to the scheduling of my next appointment they have offered nothing

less than professionalism, care, understanding, and support. All together combined with Dr. Davis and my hygienist Natalya I am very pleased and fortunate to have found such a great dental provider. I will continue to visit Dr. Davis for all my dental issues and can't wait for my next challenge with Natalya. I will encourage my friends and co-workers that if they need any professional dental work to see Dr. Davis and his staff."-Kiwi K. 8-1-09

★★★★★ *"He was great from the first appointment."* — **BABETTE L.** (Patient since 2007)
" I haven't always had great dental care. About five years ago I had went to see someone and his bedside manner was terrible. He told me I had the worst mouth he had ever seen and he told me I should have every one of my teeth pulled. I hate needles and pain so I just gave up. Last November my husband found Dr. Davis. They were so great with him he told me that I was going in. I was so scared of what they were going to say that I didn't want to go in. When I got there they were so nice and friendly. They took me back, cleaned my teeth and talked to me about how to take care of my teeth. Then Dr. Davis came in. He asked me what I wanted to do and I said I wanted to save my teeth. Dr. Davis said I was in charge and he would do what I wanted if I was willing to do what's needed. He was great from the first appointment. Most dentists hit my nerve and I have a lot of pain, but he has never done that. Dr. Davis and his staff care about you and I will always be grateful to them, I love all of them. Since then I tell all of my friends, if you want to have great teeth and be treated nice, go to them." - Babette L. 3-2008

★★★★★ *"They've been exceptional with my care."* — **AMBER P.** (Patient since 2004)

"I've been a patient with Dr. Davis for over 20 years. The love and care that they've shown me and my family over the years is unbeatable. When I call the office they know exactly who I am and they treat me like I'm family. They've been exceptional with my care. When you can walk into the office for an appointment and Dr. Davis comes out to the waiting room to say hello and ask how you and your family are doing then you know you're getting the best. Dr. Davis has continually been improving his practice by keeping up to date on new and current techniques. He'll do whatever he can to make sure you're comfortable and out of pain when you leave the office. And at one point in time I even got a back rub before I went home. I wouldn't change to another dentist for the entire world. Why would you want to when here you're treated like family."- Amber P. 8-28-07
